

# TIGER MECH NOTCHING WHEEL

FOR BEAD GRINDING ON MECHANICAL PIPE WELDS

**NEW:** From the same company that brought you Tiger Aluminum Back Flap Discs (AKA *Tiger Paws*) and Roughneck® Stringer Bead Brushes (AKA *Buffing Wheels*) comes the next innovation for the pipeline industry.

Weiler's Tiger Mech Wheels are designed for notching applications on mechanical pipe welds. These max-performance wheels are thinner than standard pipe notching wheels, allowing the operator to grind the bead without widening or scarring the bevel.

## TYPE 27 FOR MECHANIZED PIPE WELDING

### TIGER MECH NOTCHING WHEELS

**MAXIMUM PERFORMANCE - CERAMIC INFUSED** / Notching Mechanized Pipe Welds **5/8"-11 Arbor**

Diameter	Thickness	Grade	Max. RPM	Std. Pack	Item No.
4-1/2"	3/32"+	Z30T	13,300	10	58066
5"	3/32"+	Z30T	12,200	10	58067
7"	3/32"+	Z30T	8,500	10	58068

### FEATURES & BENEFITS:

#### Designed to Fit

Tiger Mech reaches the bead without widening the bevel

#### Optimized Performance

Designed specifically to grind starts and stops on J and K bevels

#### Superior Cut & Life

NOTCHING

## HIGH PERFORMANCE PIPELINE PRODUCTS FOR THE MOST DEMANDING JOBS
